

anti-static rubber cork

Excellent anti-static capabilit

Excellent anti-static capability with great protection

converse vibrations

Perfectly stabilise resonance

carbon fiber

Ungnoi

Highly-selected carbon fiber can block EMI to achieve the best sonic performance

spherical mixtures

Unique metal ratio spheres to

react to different frequencies

Materials with different textures and densities can react to the vibrations at different frequencies

Place it near extensive vibrating and interfering spots

## **CROWN - RESONANCE STABILIZER**

- A mixture of carbon fiber, natural rubber cork, aluminium, metal and ceramic balls
- Great anti-static and protection
- Works on different vibrations like chassis and aribrone
- Design for speakers and HiFi equipment

Dimensions: (W)164mm (D)150mm (H)31mm

Net weight: 780g

## 太極 Taichi MAX A Perfect Balancing Tool

Art of Balance

ungnoi.com

Non-magneti

Heavy loading

Horizontal diversion

Super Grade 5 ceramic ball, perfect sphere. Each ceramic ball with minimal deviation ±0.00013mm

Carbon Fiber Flat Washer highly selected achieve the best sonic performance

Taichi MAX's height can match HiFi equipment with higher feet

To maximize its functionality, we have designed an M6, M8 & M10 high-grade stainless steel interchangeable threaded studs for floor-stand speaker & HiFi rack

## Taichi Base

carbon fiber version

The new Taichi Base was able to enhance the density of the sound field.

The carbon fiber added to Taichi Base can neutralise the entire metal design of Taichi Base.

It increases the sonic performance and brings a greater balance to your HiFi system.

Divert and dissipate of excessive vibration energy.

ungnoi uses advanced non-magnetic solid stainless steel, which is a strictly tested steel that can support equipment and without magnetic interference

## Taichi Nino

The new non-magnetic stainless steel foundation and our super-grade ceramic ball have significantly reduced background noise and reproduced better music details.

Nino will improve the fluidity of music and the extension of mid/high range sound.

Taichi series

	Taichi MAX	Taichi Base (carbon fiber)	Taichi Nino
Height:	46.5mm	24.5mm	16mm
Diameter:	53mm	45mm	38mm
Maximum loading:	132kg/set of 4	80kg/set of 4	30kg/set of 4
Quantity:	1pc / box	4pcs / box	4pcs / box
Carbon fiber flat washer:	<b>✓</b>	<b>✓</b>	Х
Ceramic sphere diameter :	14.28mm	9.51mm	9.51mm
